Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, the phrase " separating the desired ester by a conventional method " is recited. The expression is vague and indefinite because the

Art Unit: 1625

specification does not specify what kinds of the convention method can be used for separating the desired ester. Therefore, an appropriate correction is required.

In claims 4, 5, and 8-12, the term "preferably" is recited.

A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by "such as" and then narrow language. The Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949). In the present instance, claims 4, and 8-9 recite the broad recitation of "a temperature", and the claims also recite "preferably in the range of about 70 to 80⁰ C" which is the narrower statement of the range/limitation.

In the present instance, claims 5, and 10-12 recite the broad recitation of "a period", and the claims also recite "preferably in the range of 20 to 24 hours" which is the narrower statement of the range/limitation. Therefore, an appropriate correction is required.
